Glorious Congress of Victors

The historic Fifth Congress of the Workers' Party of Korea opens today in Pyongyang, the capital of revolution, in the presence of Comrade Kim Il Sung, the great Leader of our Party and the 40 million Korean people and one of the outstanding leaders of the international communist and working-class movements.

At this historic moment, the entire Party members and people are enveloped in the feelings of boundless trust in and respect for the respected and beloved Leader Comrade Kim Il Sung, who personally founded the glorious Workers' Party of Korea and developed it and has ushered in a new, resplendent era of great changes, creation and prosperity in this land by leading the Party and the people, and they are filled with the unshakable revolutionary determination to fight on together with the Party, following the Leader forever.

At this meaningful moment, the whole Party members and people offer the warmest congratulations to the Congress, with immense pride, self-confidence, conviction and deep emotion, who have creditably executed the pledge of loyalty given to the respected and beloved Leader in the arduous struggle for carrying on the economic construction and defence upbuilding in parallel and for fulfilling the Seven-Year Plan, the grand programme of socialist construction.

The Fifth Congress of the Party convened at a grandiose time when the worth-while march in the 1970's has started, represents the historic event of great significance in the development of our Party, in the accomplishment of the cause of our revolution, socialism and communism and in the development of the general international revolutionary movement.

The Fifth Congress of the Party is a glorious congress of victors that will add a brilliant page to our Party's history.

The Congress will sum up with a high degree of pride the tremendous success gained by our Party and people under the preeminent leadership of the great Leader Comrade Kim Il Sung in the past years in turning their country into the unconquerable one of independence, self-sustenance and self-defence, into a developed, rich and powerful socialist state, pulling through grim difficulty and ordeal one after another under the uplifted banner of *Juche* and the banner of revolution. It will demonstrate with pride the brilliant victories of the great *Juche* idea of the Leader, the great Marxist-Leninist idea of our age.

And the Congress will demonstrate the invincible militant might of our Party, an experienced, seasoned Marxist-Leninist party, which has all along led the revolution to victory under the distinguished leadership of the great Leader Comrade Kim Il Sung, firmly armed with his all-conquering revolutionary ideas and theories and with his strategy and tactics and fearlessly facing up to any storm and stress. It will also demonstrate the unbreakable unity of the whole Party rallied iron-strong around the great Leader by one idea and one will, as well as the great politico-ideological unity of our people.

The Congress will confirm again the brilliant victory of our independent and principled foreign policy which our Party has steadily stuck to, holding aloft the banner of anti-imperialist, anti-U.S. imperialist struggle and the banner of Marxism-Leninism and proletarian internationalism.

The Fifth Congress of the Party will open up a new, great vista and advance the fighting task before the whole Party and the entire people, thus will mark a new, higher stage in the development of our Party and our revolution, and clearly indicate the way of actively expediting national unification, the supreme national task, so impatiently craved for by our nation.

The Congress will put powerful spurs to the grandiose onward movement of our age in which imperialism is going to decay and defeat and socialism and national liberation forces are gaining in strength and scope.

The period following the Fourth Party Congress up to now is the glorious period which has witnessed a great victory won under the wise leadership of the great Leader, the victory which will shine in the history of the revolutionary struggle of our Party and people.

In these nine years of the 1960's the immortal *Juche* idea initiated by the great Leader Comrade Kim Il Sung has been embodied in an all-round way and on a fuller scale and brought to resplendent fruition in all fields of the country—politics, economy, military affairs and culture.

During this period, our country, under the banner of the Leader's *Juche* idea, the unitary guiding idea of our Party, has made a great stride forward along the road of progress and civilization, extricating itself from the centuries-old backwardness and poverty, to become a mighty socialist country with the up-to-date industry and agriculture, and a fresh great advance has been made in the struggle for the complete victory of socialism in the northern half of the country, for national unification and the nation-wide victory of the revolution.

And this period is a shining period when our Party and state made their appearance in the international arena under the banner of independence and have enhanced their international position and prestige as never before, proudly displayed the national sagacity and honour of our people and actively contributed to promoting the world revolutionary movement as a whole.

The respected and beloved Leader Comrade Kim Il Sung said as follows:

"The great victories and successes we have attained in the socialist revolution and socialist construction over the past years are, indeed, the brilliant fruition of the great vitality of our Party's idea of *Juche* and of the line of independence, self-sustenance and self-defence—the embodiment of the idea in all fields. We formulated our policies independently by creatively applying the Marxist-Leninist principles to the specific realities of Korea and enlisted the inexhaustible creative potentials of our industrious and talented people and the rich domestic natural resources in the carrying out of the policies. That is why we have been able to build a socialist state independent in politics, self-sustaining in the economy and self-defensive in national defence in a short period of time." (Kim Il Sung, *Selected Works*, Vol. IV, p. 535.)

The all-round, thoroughgoing establishment of *Juche* both in the activities of the Party and the state and in the domain of the men's ideological and spiritual life and the strengthening of the unity and cohesion of our revolutionary ranks based on the great *Juche* idea of the Leader—these are the most brilliant victory our Party and people have ever attained.

The country where the sagacity of the nation had been trodden underfoot by the corrupt idea of flunkeyism for a long time and dark clouds of national ruin hung low, has now become the "cradle-land of the *Juche* idea" where the revolutionary spirit of independence, self-sustenance and self-defence has been displayed to the full and where a new era of the great *Juche* has opened, and it sheds its radiant light upon the world.

Today our Party has grown into the Party w[illegible] a well-established unitary ideol[illegible]al system, under which the en[illegible] members of the Party are armed firmly with the unitary idea, the *Juche* idea, the revolutionary idea of the great Leader Comrade Kim Il Sung, and think and act according to his idea and will, and has grown into the invincible Party which has attained the perfect and unqualified unity in idea, will and action on the basis of the Leader's *Juche* idea.

Our state and social system based on the worker-peasant alliance and the politico-ideological unity of the masses of the people has been solidified rock-firm, as the functions of the dictatorship of the proletariat of the people's power have been strengthened and the process of revolutionization and working-classization of the whole society has been pushed forward vigorously.

As a result of the embodiment of the line of self-sustenance laid down by the great Leader, our economy has developed into the solid one which has a comprehensive system of great vitality.

Our industry has become a many-sided industry, the *Juche* industry which meets the domestic demands for goods, firmly relying on the rich domestic natural resources, and our rural villages have turned into the well-to-do, modern socialist rural community where irrigation, mechanization, electrification and chemicalization have been introduced along the bright path indicated by the Leader in his "Theses on the Socialist Rural Question in Our Country" and which has been freed from crop failure once for all.

Epic of Comrade KIM IL SUNG

By P.L. LAKHANPAL

I

Hands rose in prayer,
Eyes sought in despair
A leader to free the land
Of foreign yoke and foreign hand,
Put an end to people's misery and pain,
Make them smile and raise their heads with pride again.
Man reduced to chattel,
People treated as cattle,
Free thought a sin,
Servitude alone to win
The honour, fame and pelf,
A shame to the very self.
So stood Korea under Japan,
When in Mangyongdae was born
Unto Kim Hyong Jik and Mother Kang Ban Sok,
A jewel of a child, fair and strong of look,
April Fifteen Nineteentwelve was the date,
To be known forever to seal all imperialists' fate.
Kim Song Ju was the name given to the boy
Who was reared with all fond motherly care and joy
Into a peerless patriot to love the poor but to dare
The mighty and the strong, and to spare
No effort to rid his beloved land
Of foreign yoke and foreign hand.
Around the hallowed place there is many a spot
Which bespeaks of his greatness and loving childhood past,
There stands the turret-house where he would read
His lessons and books with Chollima's zeal and speed;
And yonder a place where he would wrestle and spin
The elders with ease to a fall and a mighty win.
And there still stands a-smile the Dulmae tree,
Atop which he did one day go with glee
To catch the distant rainbow
In his hands and never let it go;
And there the spot where in his mother's lap he would swing,
With joy, his mind a-soar high like swallows on the wing.
And down at the bottom of the hill,
There stands in majestic glory, serene and still,
The three-roomed thatched house where his parents did dwell,
Where he was born and reared with love and care so well,
With a flame lit in his heart and imbued with firm resolution,
To rid Korea of foreign yoke and advance world revolution.
Far up one can see the famed Mangyongbong hill
Where in his father's lap he would be told to his heart's fill
The stories of Korea's Heroes and warriors great,
Of Japanese oppression and of pirate General Sherman's fate,
Stories that fired his imagination and steeled his will
To expel the aggressors and make Korea free and happier still.
Kim Il Sung was barely five or so
When his teacher-father to Ponghwa-ri did go,
Aiming high and scintillating fire and resolution firm
To topple soon the hated, rotten Japanese realm,
Such simple life, such noble thought!
Oh! of what a stuff Mr. Kim Hyong Jik was wrought!
But hardly had a year and half gone by,
When someone to the brutes on the Korean National Association did spy
As a massive bulwark to hasten their doom,
Liberate Korea and rid it of all agony and gloom:
Quickly was the founder put in chain
And marched off to Pyongyang prison to people's anger and pain
Then they came galloping down upon the house with a thunder,
Doors were torn apart, pieces and covers thrown asunder,
But there stood in the way heroic Mother, firm like a rock
Flinging clothes and curses in their face, in her eyes a fiery spark:
And from a corner young Kim Il Sung watched the scene,
Proud of his Mother, burning with hatred for the Japs but his face so calm and serene,
And forever became engraved upon his tender mind,
The image of his valiant father, so gentle, noble and kind,
Locked behind prison bars, so stiff and cold,
But his eyes still set on stars, his mind still so free, firm and bold.
Kim Il Sung's very being became a ball of fire, mighty and strong
To burn the Japanese down to ashes and avenge his father's wrong.
Now Kim Hyong Jik moves to the North being set free,
And Kim Il Sung, barely fourteen, starts a trek of a thousand ri,
He crosses the Amnok River, singing an unknown warrior's song:
Oh! when will my land be free and me back where I belong?
Overwhelmed with pain and sorrow he takes a vow
Never to return to the land till the last Jap from here was made to go.

II

Far, far away in the North,
Mid thick forests, atop a Mount Paekdu Hill,
Revolution came to have its humble, glorious hearth,
And the Red flag fluttered in the breeze sharp and shrill,
And even more sharp and shrill rang Kim Il Sung's clarion call
Over the mount, over the vale; over the sea and over the plain:
'The Guerrillas shall triumph, fighting all for one, one for all,
And the Japanese shall be made to quit the land or be slain.'
Thunder gripped the air,
Lightning held the sky,
Japanese hearts fell with fear,
Koreans' rose with hopes high:
And anon the little spark atop the Mount Paekdu Hill
Burst out into a mighty raging flame
With the youth flocking all-around, firm and strong of will
To free their beloved land and bring her glory and fame.
Like a fast-spreading fire in the wild
The guerrillas swept the land under their sway:
And the Japanese dreading fire like a burnt child,
Were hit hard and thrown back in disarray;
And then the very heavens and earth shook
With Kim Il Sung's thunderous battle-cry
Resounded by people from every corner and nook:
"We shall strike it hard, we shall do or die."
"Mightiest of the mighty, greatest of the warriors great":
Kim Il Sung's fame spread far and wide;
"He hits with the fury of rivers in spate,

Thanks to the correct policies laid down by the respected and beloved Leader and his great solicitude the universal compulsory nine-year technical education, the first of its kind in Asia, has been introduced in our country, one-fourth of the population receive education free of charge, the *Juche* science has made rapid development and red flowers of literature and arts are in full bloom.

Today our people in the socialist paradise provided by the respected and beloved Leader are all working heart and soul for the Party and the revolution at their worth-while work places cherishing a greater, brighter hope and proudly singing of the era of Workers' Party, freed from any worries about food, clothing, medical treatment and education of their children.

As a result of the thorough implementation of the self-defensive military line set forth by the great Leader Comrade Kim Il Sung, the ever-victorious iron-willed brilliant commander and military strategist-genius, whose main contents are to turn the whole army into a cadre army and modernize it, arm the entire people and fortify the whole country, our country has been converted into an impregnable fortress and each of our armymen and people has become able to cope with one hundred foes.

In the past period, new, great progress has also been made in the struggle for unifying the country and completing the national liberation revolution throughout the country under the pre-eminent leadership of the great Leader Comrade Kim Il Sung.

Whole-heartedly upholding the strategic and tactical line of the South Korean revolution advanced by him, the South Korean people vigorously unfolded the nation-wide anti-U.S. imperialist, national-salvation struggle and founded in South Korea the Revolutionary Party for Reunification, a militant, flexible Marxist-Leninist party of a new type, firmly guided by the revolutionary ideas of the great Leader Comrade Kim Il Sung.

The struggle of the 600,000 Korean nationals in Japan and other overseas compatriots to achieve the country's unification and defend their national dignity and honour is also developing dynamically.

In the past period, under the leadership of Comrade Kim Il Sung, one of the outstanding leaders of the international communist and working-class movements, our Party, holding high the revolutionary banner of Marxism-Leninism, exerted all possible efforts to strengthen the international solidariy with our revolution, realize the unity and cohesion of the socialist countries and the international communist movement and accelerate the development of the world revolutionary movement as a whole.

The correctness of the basic strategy of the world revolution on directing the spearhead against U.S. imperialism, the strategy of struggle on dismembering U.S. imperialism and the line of fighting against the allies of U.S. imperialism while struggling against it, etc., originally elucidated by Comrade Kim Il Sung, the great Leader of revolution, has been confirmed through the practice of the world revolution. And they vigorously inspire the fighting people and constitute a powerful propelling power in developing the anti-imperialist, anti-U.S. imperialist revolutionary struggle on a world-wide scale.

The international authority and prestige of our Party have been enhanced as never before and international solidarity with our revolution has been strengthened unprecedentedly.

The great victories and brilliant achievements in the revolutionary struggle and construction work and the radical changes and transformation in this country are the precious fruition of the great revolutionary idea, the *Juche* idea, of Comrade Kim Il Sung, an outstanding Marxist-Leninist in our times and the brilliant Leader of the revolution, and of his seasoned Marxist-Leninist leadership.

In the period before and after the Fourth Congress of our Party, our revolution was in the stage of a new turn.

For the continued advance and higher upsurge of the revolution following the establishment of the socialist system, it stood out as an urgent question, first of all, to make clear the prospect of socialist society and elucidate the concrete course and ways for the completion of socialist construction and transition to communism.

This difficult question which remained unsolved so far has been splendidly settled by Comrade Kim Il Sung, the great Leader of revolution and an outstanding Marxist-Leninist.

Comrade Kim Il Sung created a scientific theory on the complete victory of socialism and illumined the untrodden path to socialism and communism in an all-round way and thus made an immortal and historic contribution to the development of the scientific communist theory and the accomplishment of the cause of the working class.

Along with the theory on the complete victory of socialism, the theories and lines newly advanced by Comrade Kim Il Sung—the theory on the period of transi-

"He sweeps the enemy off like straws in the tide."
Though long and drawn-out became the battle,
With the whole Japanese might thrown in the fray.
None of their Generals could match his mettle,
None could check his fast-spreading sway.
He struck in the rear,
He had made noises in the right;
He skilfully drew the enemy near,
Then swiftly passed through making them one another fight
And when they thought
They had him on the run,
They themselves in a trap were caught
And quickly slaughtered all and one.
Glorious became the anti-Japanese Armed Guerrillas' name.
Glorious and noble became their tradition,
Heroic brothers all, sons of the soil, one and the same,
Comrades-in-arms spurred by life's noblest mission:
And in the land they held under their sway
There was neither serf nor lord,
None to exploit, none to block people's way
In their onward march to a happy glorious lot.
Gone was the fear from people's mind,
Gone the despair from Koreans' heart,
In Kim Il Sung they found a leader noble and kind,
And the world revolution got off to a mighty start:
Though they were still under the Japanese yoke,
Koreans now fought to lead a life proud and free,
Proudly they talked of their Leader's deadly stroke,
Proudly they spoke of the Japanese rout in Pochonbo battlefield.

And not only in the field of battle,
But also in the realm of socialist thought,
Many a new line by him was settled,
And reaction and dogma ever boldly fought.
And through the Association for Fatherland's Restoration
And through his writings and ideas bold and great
Kim Il Sung ensured in advance the creation
In Korea of the world's finest Socialist State

III

On August fifteen in the year Nineteen Fortyfive,
Koreans gleefully saw the Japanese out of their holds drive
To bend in ignoble surrender their knee
Before the Russians and the heroic Korean Guerrilla Army,
Liberator Kim Il Sung had triumphed and freed the land
Of the hated Japanese yoke, of the hated foreign hand.
Whole of Pyongyang now into a mass rally surged
To welcome the Leader, and respectfully heard
Kim Il Sung give a new clarion call
To build Korea anew for one and all,
Free from exploitation of centuries old,
A heaven for men thinking and acting bold.
Merrily now the tiller tilled his allotted soil,
Happily now the worker took to his honoured toil,
Zealously now were the people taught
Of world Socialists' great new thought:
And wondrously now the world heard
Of Korea's startling leaps forward.
But while the Democratic People's Republic from one height to another pressed,
Brothers in South Korea cried out in pain and were brutally repressed
By the hated U.S. imperialists who now held it as their base
For aggression on the North to wreck the young Socialist State,
And egged on by them on June twentyfive Nineteen Fifty
A new war was unleashed by their hated puppet, Syngman Rhee.
And as in the art of deceipt ever adept,
Americans rushed to the U.N. and before it bitterly wept,
Feigning injured innocence and made it align
Itself as a partisan to further their evil design;
And in violation of all laws and their Charter the befooled Members wrote
A warrant for U.N. Force to serve as U.S. Imperialists' sacrificial goat.

But in throwing the gauntlet to Koreans bold and brave,
The Americans verily began digging their own earthly grave,
Kim Il Sung's call for all effort in the war
Made each Korean a match for a thousand near and far;
Firmly they held their lines and hit back to make the enemy flee
Far deep into the South, well nigh into the Eastern Sea.
Like a giant hit hard with a blood-spattered face
The U.S. went berserk and hit back with maddening rage,
Raining death and destruction on all that met the eye
From vessels and vehicles of war, from the sea, earth and the sky:
And soon the Nazis in their graves were put to shame
By the heinous brutalities that now stood in the U.S. name.
With new strategies Kim Il Sung met their challenge,
He pulled his men into safety and planned to take revenge
Finally he sent the aggressor tumbling down on the run
With stunning glorious victories like the one on Height twelve-eleven;
And an admiring world saw at Panmunjom on July twentyseven Nineteen fiftythree
U.S. sign in an Armistice their first defeat in history.
With their Victory in the Fatherland Liberation War
Bright and mighty rose and shone the Korean Star.
And under Kim Il Sung's great sagacious lead
Koreans began with Chollima's zeal and speed
From the war ruins, ashes and rubble
To build anew a smiling, prosperous Korea on the double.
Once again the world held its breath
At Korean miracles' break-neck speed,
Once again it saw it done in a week or a day,
What under Capitalism years and months would take:
And before the decade could take its new breath,
It saw Korea turn into a Socialist heaven on earth.
And the friend and foe applauded alike
Koreans' capture of 'Pueblo' and their mighty strike
At EC One Two One, learning full well and at length
Glorious miracles wrought by Juche, living by one's own sense and strength:

Once again was the U.S. made to eat the humble pie
And bend its knee before the heroic Koreans in an open apology.
The whole world was enthralled and cheered with gusto
Kim Il Sung's gift of this Century's new Communist Manifesto
Through his Report of September Seven Nineteen Sixtyeight,
Arming Socialists for all times with ideas new and great,
And men aboard the ship of world revolution gratefully bowed their head
To Korea the land of heroes for giving them their long-wanted masthead.

Kim Il Sung is world's mightiest reddest sun,
Giving new strength and life to all and one:
Risen to send imperialism and reaction to its rotten doom
And to make freedom and socialism forever bloom;
To end exploitation and misery on the earth
And fill with cheer and joy every home and hearth.

tion and the dictatorship of the proletariat, the theory on occupying the ideological and material fortresses, the two fortresses to be occupied without fail on the way to socialism and communism, the line of combining class struggle with the unity and solidarity of the masses of the people under socialism, the creation of the Taean work system, a communist system of guidance and management of the socialist economy, and the new system of guidance in agriculture, the line of building the economy and defences in parallel—these are the guide lines to be firmly adhered to in the building of socialism and communism. Our Party and people could solve all difficult and complicated questions with credit by thoroughly implementing these theories and lines.

The respected and beloved Leader personally called on the working class and led them to effect a great revolutionary upsurge standing in the van to be worthy of the leading class of the revolution. And he saw to it that the entire working people carried on economic construction and defence upbuilding in parallel in the revolutionary spirit and stamina without the slightest vacillation even under the acute internal and external situation.

Passivism and conservatism obstructing our advance have thus been smashed to smithereens. And the reactionary sophistry of the socialist economy marking time has also been frustrated. The defence capabilities of our country have been built like an iron wall.

The strengthening and development of our Party by the great Leader Comrade Kim Il Sung and the enhancement of its fighting capacity and leading functions are a sure guarantee for our victory in all revolutionary struggles and construction work.

The respected and beloved Leader Comrade Kim Il Sung said as follows:

"The Workers' Party of Korea has grown up and been tempered in the flames of the struggle. It is a seasoned Marxist-Leninist party which has performed great exploits and gained a wealth of experience in the course of struggle. Our Party is a revolutionary, militant Marxist-Leninist party which is united with a single ideology and purpose, has close bonds of kinship with the masses of the people, is opposed to conservatism and stagnation, and is continuously advancing and fighting." (Ibid., pp. 280-81.)

By thoroughly implementing the outstanding idea and line of establishing the unitary ideological system of the Party set forth by the Leader, our Party solidly established a well-regulated organizational system, under which the whole Party acts under the unitary leadership of the Leader, and fully materialized the Leader's unitary leadership of the whole of the system of the dictatorship of the proletariat.

With the thorough, all-round embodiment of the great Chongsan-ri spirit and Chongsan-ri method created by him in the Party and state and economic work, the Party work has become a living, creative one with the people and bureaucratism and formalism have been decisively overcome, our Party's traditional, revolutionary method of work and popular style of work extensively established and Party spirit, working-class spirit and popular spirit brought out fully among functionaries.

The great Leader Comrade Kim Il Sung newly elucidated the task and role of the working people's organizations under socialism, and strengthened the Party's guidance so that they might raise the level of their independent activities. This enabled them to splendidly carry out their tasks and role as the transmission belt linking the Party with the masses.

Today our Party has grown and developed into an invincible combat rank closely united as one around the great Leader Comrade Kim Il Sung, a vanguard detachment of revolution resolutely defending and carrying through his revolutionary ideas, and a reliable guiding force rallied as one with the masses and enjoying their unqualified support and trust.

It is the greatest honour, pride and happiness for the working class and people of Korea to have the Workers' Party of Korea, the great and glorious Party that will brilliantly shine forever with the name of Comrade Kim Il Sung.

The Fifth Congress of the Party will shed its brilliant light on the road of our revolution, by victoriously accomplishing its work under the banner of the great *Juche* idea of the Leader.

Invincible is the revolutionary cause of our Party and people who are advancing, united as firm as a rock around the great Leader Comrade Kim Il Sung, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, and under his seasoned leadership. And only ever greater victory and brighter future are in store for them.

Long live Comrade Kim Il Sung, the founder and Leader of our Party and the great Leader of the 40 million Korean people!

Long live the Fifth Congress of the Workers' Party of Korea, the glorious congress of victory!

Proud Gifts to the Fifth Party Congress from Our Heroic Working Class Loyal to the Leader

Paean of Victory Rings over Eminence of Seven-Year Plan

The workers of factories and enterprises in different parts of our country who have unfolded a vigorous struggle to capture the heights of the Seven-Year Plan, are now greeting the historic Fifth Congress of the Workers' Party of Korea with the fulfilment or overfulfilment of their plan assignments.

The forestry workers throughout the country who had made a report of loyalty to the respected and beloved Leader by carrying out the Seven-Year Plan with credit, fulfilled splendidly their yearly assignments at 100.2 per cent as of October 26.

This proud success is the result of the sagacious guidance of the great Leader of our people Comrade Kim Il Sung and a manifestation of their intense loyalty to the Leader.

The respected and beloved Leader Comrade Kim Il Sung said as follows:

"The entire working people should work in a more revolutionary way without slackening their high revolutionary spirit in the least and make the best use of the economic basis already laid and all potentialities of production to step up production and construction, thereby further expediting the fulfilment of the Seven-Year Plan."

Bearing deep in mind the instructions of the Leader, Red forestry workers further strengthened the already-laid foundation of forestry by displaying more fully the revolutionary spirit of self-reliance in the high tide of revolution, made effective use of it, and thereby creditably carried out their pledge given to the Leader.

On every felling ground they have steadily expanded success in timber production thoroughly introducing the cyclic felling method initiated personally by the fatherly Leader.

The revolutionary stamina and fervour to carry through to the end unconditionally the orders and instructions of the Leader through thick and thin and remain singleheartedly and boundlessly loyal to him have also been displayed in the fields of rolling stock manufacturing industry and fishing industry.

The workers of the Kim Jong Tae Electric Locomotive Factory exceeded their Seven-Year Plan by 16.5 per cent as of October 20.

During the fulfilment of the plan they surpassed their goal for production of the electric locomotive "Red flag" by 62.7 per cent.

The Red fishermen in Wonsan, a powerful fishery base on the east coast, brilliantly carried out their Seven-Year Plan as of October 21 by having a successful haul of fish from the outset of the year combating with furious storm and waves.

They fulfilled the Seven-Year Plan at 196.4 per cent in the total value of production, at 129.9 per cent in output of marine products and at 123.7 per cent in fish catch.

Now our heroic working class continue to forge ahead in the spirit of Chollima and in the "a-match-for-a-hundred" spirit, not content with the proud successes they have already attained, looking forward to the moment of glory they will receive new revolutionary tasks that the Fifth Congress of our Party will put forth.

Presents from Machine Builders

The workers and technicians of the machine building factories in various parts of our country, infinitely faithful to the Leader, have manufactured new-type continuous excavator, 300 h.p. bulldozer, 25-ton heavy-duty lorry, 10-metre turning lathe, 400-mm. boring machine, 50,000 kw. generator, 2,000 h.p. diesel locomotive and many other kinds of up-to-date large-size machines and equipment and electric machines and equipment in honour of the Fifth Congress of our Party, besides their enormous plan assignments for this year.

The respected and beloved Leader Comrade Kim Il Sung taught as follows:

"The whole Seven-Year Plan period will be a period of the overall technical revolution in all branches of the national economy. Without speedily developing the machine-building industry and turning out sufficient modern machinery and equipment, we cannot take a step forward. The solution of all problems of technical renovation, such as introducing mechanization and automation of the production processes and implementing electrification and the application of chemistry, alter all, depends on the development of the machine-building industry."

The Red machine builders who had built, upholding the teaching of the respected and beloved Leader, a 6,000-ton press shop, the large kilns at the February 8 Cement Factory and the large-size cold storage ship, resolved to turn out large machines and electric machines and equipment in honour of the Fifth Congress of our Party and unfolded a spark-flying labour struggle, keeping up their high-pitched revolutionary ardour.

The workers of the Ryongsong Machine Factory who unconditionally carry out to the end the instructions of the Leader, have vigorously raced ahead maintaining the spirit in which they overfulfilled their production assignment for this year which is bigger than last year's, and thereby manufactured with success a 400-mm. boring machine and 12-metre planer as a gift to the Party Congress.

The machine builders of the factory where Comrade Kim Pyong Sik works, too, manufactured a 10-metre turning lathe, out of a desire to be single-heartedly loyal to the fatherly Leader who rebuilt into a modern machine factory as seen today their factory which could not turn out even small farm tools in the days of Japanese imperialist colonial rule and who takes good care of them.

The workers of the automobile plant where Comrade Kim Se Yun works, made the 25-ton heavy-duty lorry and showed their loyalty to the Leader. Workers of other machine factories also achieved proud successes of producing optical coordinate boring machine and explosion-proof transformer and electric motor and other highly-efficient modern machines and equipment.

The workers of the Chollima Taean Electric Machine Factory who had manufactured a 400,000 kv. large-size transformer as their labour gift to the Congress of the mother Party, turned out a 50,000 kw. large-size generator by tapping inner reserves. The workers and technicians of the Klyang Tractor Factory have vigorously unfolded a struggle to produce more tractors for our socialist countryside and turned out a 300 h.p. bulldozer. The workers of the Kim Jong Tae Electric Locomotive Factory who are making a great contribution to electrification of railways, the arteries of the country, newly manufactured a 2,000 h.p. diesel locomotive. The Chollima factory where Comrade Kim Gyong Myong works made a large-size continuous excavator 35 metres long and 5.8 metres wide.

A high degree of revolutionary enthusiasm and creative activity were displayed in building of large-size ships by the workers and technicians of shipyards in various parts of the country who already built this year the 5,000-ton class large-size cold storage ship "Ponghwa-san" and big ships "Unpa-san" and "Taedok-san" by putting all their efforts and energies into the honourable struggle for translating into reality the lofty intention of the fatherly Leader who always shows profound solicitude for our people, exerting every effort to make them live better than others.

These new large-size machines and equipment manufactured by our Red machine builders, who are boundlessly faithful to the fatherly Leader, will do much towards further reinforcing our machine building industry and expediting the country's economic construction and defence upbuilding.

Newly-Built Hotel Kumsusan

On the eve of the Fifth Congress of our glorious Party, there sprang up in Pyongyang, the capital of the revolution, a hotel Kumsusan equipped with modern facilities.

The ten-storeyed hotel, built under the direct concern of the respected and beloved Leader Comrade Kim Il Sung, is very graceful and beautiful for its concentric embodiment of socialist content and national style. It can accommodate more than one thousand guests at a time.

The Leader not only chose in person a marvelous place for its construction where one can get a glimpse of the beautiful scenery of Moranbong Hill but also showed meticulous care even for designing and construction of the hotel giving instructions on no less than 20 occasions.

This hotel built to suit the tastes and sentiments of our people in accordance with his teachings has been completed in a little more than half a year.

The hotel fully equipped with sanitary and cultural facilities was inaugurated on October 20 and began to serve the guests.

Local Industry Factories Are Built Everywhere to Honour the Fifth Party Congress

Local Industry Has Made Big Success in Implementing the Leader's Teaching

With the Fifth Congress of our Party near at hand, wonderful miracles have been wrought in the field of local industry, too.

At the National Meeting of Local Industrial Workers held in February this year, the respected and beloved Leader Comrade Kim Il Sung taught as follows:

"By continuously maintaining the high revolutionary spirit of the masses and further stepping up the mass innovation movement among the working people, we should build as many local industrial factories as possible—1,000, 2,000, 3,000 or more."

Wholeheartedly following the programmatic teaching of the respected and beloved Leader Comrade Kim Il Sung, the functionaries and workers in the field of local industry throughout the country have risen as one in the struggle to build local industrial factories. And more than 1,760 factories have been set up in only half a year.

Many of them including 520 factories built as gifts to the Fifth Congress of the Party have been already put into operation and are now mass-producing goods.

Among the factories built to honour the Party Congress are all daily necessaries and foodstuff processing factories.

The newly built local industrial factories are of big size and modernly-equipped in general, and their products are of good quality. The production processes of these factories which are modernly equipped with the strong support of heavy industry are mechanized, semi-automated or automated.

Major items turned out in the modernly-equipped factories to be presented to the Party Congress alone number over 1,000 in kind.

Most of these products are daily necessaries needed for the material and cultural life of our people. They include various ironwares such as refrigerators and oilstoves, a wide range of processed foodstuffs of meat, vegetables, fish and wild fruits, leather products, furniture, glasswares, chemical goods, building materials, industrial art objects, porcelains and various fabrics.

These changes made in the field of local industry are a brilliant fruition that has been attained under the wise leadership and utmost solicitude of the respected and beloved Leader Comrade Kim Il Sung who indicated the way of building more local industrial factories by mobilizing reserves and potentials latent in localities through a mass movement in all parts of the country.

The working people throughout the country are unfolding a creative, energetic labour struggle to provide the population with more, better and varied consumer goods, while further consolidating the successes already made in implementing the Leader's teaching.

"Experience of Struggle Gained by the Workers' Party of Korea Is Greatly Conducive to Enriching the Treasure-store of Marxist-Leninist Theories Today"

Foreign Friends Highly Praise Immortal Exploits Performed by Comrade KIM IL SUNG, Founder of the Workers' Party of Korea

Comrade Kim Il Sung, the brilliant Leader of revolution, founded the Workers' Party of Korea immediately after the country's liberation on the basis of the brilliant revolutionary traditions and the organizational and ideological preparations for the founding of a party he had built up and made in the years of the anti-Japanese armed struggle, and strengthened and developed it into an ever-victorious, invincible Marxist-Leninist party.

Our people have made great achievements in revolution and construction under the wise leadership of the Workers' Party of Korea headed by Comrade Kim Il Sung.

Today many friends and revolutionary people of the world express boundless and highest esteem for the respected and beloved Leader Comrade Kim Il Sung who personally founded the Workers' Party of Korea and has strengthened and developed it.

The Workers' Party of Korea Is an Invincible Party That Has Inherited the Glorious Revolutionary Traditions of the Anti-Japanese Armed Struggle

Diet member **Shozo Hasekawa** from the Japan Socialist Party said as follows:

The history of the Workers' Party of Korea founded by Premier Kim Il Sung on October 10, 1945 is not so long but its root is very deep.

Premier Kim Il Sung waged the 15-year-long bloody anti-Japanese armed struggle to free Korea from the yoke of Japanese imperialist colonial rule and established the glorious revolutionary traditions in the course of the arduous struggle.

For the heroic struggle waged by the anti-Japanese partisan fighters under the leadership of Premier Kim Il Sung, the ever-victorious iron-willed brilliant commander and the hero who saved the Korean nation, the Workers' Party of Korea could be founded immediately after liberation and it has been able to lead the Korean revolution victoriously rallying the Korean people firmly around it.

The Workers' Party of Korea successfully carries on socialist construction, creatively applying Marxism-Leninism to the Korean reality and following the thorough *Juche* idea. Its experience of struggle is greatly conducive to enriching the treasure-store of Marxist-Leninist theories today and serves as an example for the people of the world who aspire after socialism.

P.T. Pemenov, Secretary of the All-Union Central Council of Soviet Trade Unions and head of the Soviet trade union delegation which visited our country, pointed out as follows:

Our delegation was struck with admiration at the sight of historical materials showing the glorious anti-Japanese armed struggle waged by the Korean Communists under the leadership of Comrade Kim Il Sung.

Thanks to such revolutionary traditions and the leadership of Comrade Kim Il Sung who personally guided the anti-Japanese armed struggle, the Workers' Party of Korea could lead the Korean revolution confidently to victory from the first day of its founding and can lead it splendidly to victory today as a powerful party.

The telegram of greetings from the Central Committee of the Communist Party of Cuba to the Central Committee of the Workers' Party of Korea said as follows:

The Korean people and the Workers' Party of Korea led by Comrade Kim Il Sung displayed heroism in the anti-imperialist struggle for decades and their example and revolutionary determination represent a valuable encouragement to the struggle of all the oppressed peoples in Asia, Africa and Latin America.

Chairman **P. De Groot** of the Central Committee of the Communist Party of the Netherlands stated in his article published in his party organ:

Comrade Kim Il Sung strongly called upon the Marxist-Leninist Parties in our times to attach the greatest importance to independence and faith in their own ability.

The Workers' Party of Korea is a prudent and militant party and is a big party in the good sense of the word.

The Workers' Party is an important party and its voice carries weight.

The Pakistani Pictorial wrote as follows:

After liberation Premier Kim Il Sung founded the Party with the Communists tempered in the anti-Japanese armed struggle as its core and led the anti-imperialist, anti-feudal democratic revolution in the northern half of the Republic and the great Fatherland Liberation War to victory.

Premier Kim Il Sung led the socialist revolution and socialist construction in the northern half of the Republic to victory and thereby converted Korea into a mighty socialist state independent in politics, self-sustaining in the economy and self-defensive in national defence.

The Workers' Party of Korea led by Premier Kim Il Sung maintains the creative stand of opposing flunkeyism and dogmatism and applying universal truth of Marxism-Leninism to suit the specific features of the country.

The Korean people solve all problems for themselves, rejecting reliance on other countries and displaying the revolutionary spirit of self-reliance.

Independent Measures Taken by the Workers' Party of Korea Are Unthinkable apart from the Great Revolutionary Ideas of Comrade KIM IL SUNG

Kakuo Honjo, Permanent Director of the Japanese Committee for Asian-African Solidarity and former President of the All Construction Ministry Workers' Union, said as follows:

The Workers' Party of Korea is stepping up socialist construction at a fast rate the kind of which is not to be found anywhere else in the world by unfolding the Chollima movement, creating the Chongsan-ri method and the Taean work system and giving full play to the revolutionary consciousness and creative labour zeal of the toiling masses.

In particular, the Workers' Party of Korea has thoroughly implemented the line of building the economy and defences in parallel and made the defence capacity indestructible so as to cope with the situation in which the U.S. imperialists continue to occupy South Korea and incessantly manoeuvre to unleash another war.

All this is the fruition of the *Juche* idea of the Workers' Party of Korea and the revolutionary line of independence in politics, self-sustenance in the economy and self-defence in national defence—an embodiment of the *Juche* idea.

This revolutionary line of the Workers' Party of Korea is strictly based on proletarian internationalism and clearly shows how important it is for the Communist Parties of all countries in the world to maintain independence in carrying out the revolution of their countries.

The Algerian paper **La Republique** stressed as follows:

Premier Kim Il Sung, the founder of the Workers' Party of Korea, from the firm principled stand, has always formulated Marxist-Leninist and independent policies and led the Korean people to great victories, overcoming all difficulties and trials.

Therefore, the independent measures taken by the Workers' Party of Korea in all domains of politics, economy, military affairs and culture are unthinkable apart from the great ideas of Premier Kim Il Sung.

The telegram of greetings from General Secretary **Narciso Isa Conde** of the Central Committee of the Dominican Communist Party to the Central Committee of the Workers' Party of Korea on the occasion of the 25th anniversary of the founding of the Workers' Party of Korea, noted as follows:

Comrade Kim Il Sung! The Workers' Party of Korea united on the basis of your spirit and ideas has played a role of vital importance in the 25 years in the struggle for fulfilling the basic tasks the Korean revolution has carried out and is carrying out —the tasks for the national liberation of the country, for founding the Republic, for inflicting a heavy defeat upon the U.S. imperialist aggressors, for building socialism and dealing powerful blows to the imperialists' provocations and achieving the country's unification.

The Workers' Party of Korea under your sagacious leadership has also armed the people with spirit of iron discipline and organization, tempered them ideologically and educated them in militant proletarian internationalism in these 25 years.

On this day of great historic significance, we most cordially hope that the Workers' Party of Korea will further develop organizationally and ideologically with the revolutionary idea of *Juche* founded by you Comrade Kim Il Sung as its guide.

President **Jean Pierre Nonolte** of the National Executive Committee of the Federation of Trade Unions of the Congo said in his telegram to Comrade Kim Il Sung as follows:

We know that thanks to the wise and outstanding leadership of Comrade Kim Il Sung, the ever-victorious Workers' Party of Korea has been able to lead the Korean revolution from victory to victory and the Korean people, perform world-startling immortal exploits. The toiling people in the Congo look up to you not only as the outstanding Leader of the 40 million Korean people but also as one of those who have raised the torch of world revolution.

We sincerely wish you good health and a long life.

Invincible Is the Blood-sealed Militant Friendship and Solidarity between Peoples of Korea and China

Various Events Held on the Occasion of the 20th Anniversary of Entry of the Chinese People's Volunteers into Korean War

On the occasion of the 20th anniversary of the entry of the Chinese People's Volunteers into the Korean war (October 25), "Korea-China friendship ten days" was marked from October 18 to 27 in our country. In this period, various functions were held.

There was a Pyongyang city meeting commemorating the 20th anniversary of the entry of the Chinese People's Volunteers into the Korean war. Similar meetings were held in every provincial capital.

On October 25, a grand Sariwon mass meeting was held, attended by the Chinese people's friendship delegation which was on a visit to our country on the occasion of the 20th anniversary of the entry of the Chinese People's Volunteers into the Korean war.

That day the goodwill mission of the brotherly Chinese people was warmly welcomed by more than 100,000 people in Sariwon lining 4-km-long route.

Respectfully put up in the heart of the main street of Sariwon were a portrait of Comrade Kim Il Sung, the great Leader of the Korean people, and a portrait of Comrade Mao Tse-tung, the great Leader of the Chinese people.

The central square in Sariwon where the mass rally took place was filled with a great number of people.

The rostrum was taken by the members of the Chinese people's friendship delegation with Comrade Tseng Ssu-yu, Member of the Central Committee of the Communist Party of China, Commander of the Wuhan units of the Chinese People's Liberation Army and Chairman of the Hupeh Provincial Revolutionary Committee, as its head, and Comrade Chen Hsien-jui, Member of the Central Committee of the Communist Party of China and Political Commissar of the CPLA Peking units, as its deputy head, and Li Yun-chuan, Ambassador of the People's Republic of China to Korea.

Also taking up the rostrum with the guests were Comrades Pak Sung Chul, Yang Hyong Sop and Han Ik Su; and Choe Yun Su, Chairman of the Central Committee of the Korea-China Friendship Association and Minister of Finance; Li Yong Ik, Chief Secretary of the North Hwanghae Provincial Committee of the Workers' Party of Korea; Kim Gi Son, Chairman of the North Hwanghae Provincial People's Committee; Kim Jae Bong, Vice-Minister of Foreign Affairs; and other responsible functionaries of local Party and government organs and mass organizations, and Lieutenant General O Jae Won and Major General Li Chol Bong of the Korean People's Army.

The rally was first addressed by Li Yong Ik, Chief Secretary of the North Hwanghae Provincial Committee of the Workers' Party of Korea.

After the speech he conveyed a silk banner in the name of the rally to head of the delegation Tseng Ssu-yu.

His speech was followed by Comrade Tseng Ssu-yu, head of the delegation.

After concluding his speech, he conveyed to Chief Secretary Li Yong Ik a silk banner to the valorous Sariwon citizens in the name of the Chinese people's friendship delegation.

Filled with the feeling of the militant friendship and solidarity sealed in blood between the peoples of Korea and China in the struggle against the common enemy and the revolutionary determination of the peoples of the two countries to fight the enemy to the end under the uplifted banner of the anti-imperialist, anti-U.S. imperialist struggle, the speeches were punctuated time and again by enthusiastic applause of the attendants.

In the meantime, a wreath in the joint name of the Central Committee of the Workers' Party of Korea, the Presidium of the Supreme People's Assembly and the Cabinet of the Republic was laid at the foot of the friendship monument in Pyongyang on October 25.

So Long As the Question on Korea Is Discussed at the U.N., Representative of the DPRK, the Party Directly Concerned, Should Participate in Its Discussion

DPRK Foreign Ministry Issues Statement

The Ministry of Foreign Affairs of the Democratic People's Republic of Korea issued on October 25 the following statement concerning the draft resolution on unconditionally inviting the representative of the Democratic People's Republic of Korea, the party concerned, to take part in the discussion of the question on Korea, which was laid before the 25th session of the United Nations General Assembly:

In connection with the discussion of the question on Korea at the 25th session of the United Nations General Assembly, the delegates of the socialist countries and many Asian and African countries to the United Nations put forward, on October 23 last, a draft resolution to invite unconditionally the representative of the Democratic People's Republic of Korea to participate in it.

As the Government of the Democratic People's Republic of Korea made it clear again in its statement of August 29, 1970, it has invariably maintained that so long as the question on Korea is discussed at the United Nations the representative of the Democratic People's Republic of Korea, the party directly concerned, should participate in its discussion.

The proposal made again recently by the delegates of the socialist countries and many Asian and African countries to invite unconditionally the representative of the Democratic People's Republic of Korea to participate in the discussion of the question on Korea at the United Nations conforms to the principles of the United Nations Charter and is entirely just.

The proposal to invite unconditionally the representative of the Democratic People's Republic of Korea to participate in the discussion of the question on Korea at the United Nations is enjoying support and arousing sympathy from many more countries every year.

Nevertheless, this question has not yet been solved up to date when more than 20 years have elapsed since the question on Korea began to be discussed at the United Nations, owing to the villainous obstructive manoeuvres of U.S. imperialism.

The U.S. imperialists doggedly hamper the participation of the representative of the Democratic People's Republic of Korea, speaking about the so-called "conditional invitation."

This comes from the evil scheme of the U.S. imperialists to prevent the United Nations from hearing the voice of the genuine representative of the Korean people and to continue to deceive world public opinion and to cover up the policy of aggression and war they are pursuing in South Korea.

There can never be, from the outset, such a "conditional invitation" manufactured by the U.S. imperialists and it entirely runs counter to the principles of the United Nations Charter.

The Government of the Democratic People's Republic of Korea always respects the United Nations Charter and its objectives.

If the United Nations really wants to act in conformity to the principles and objectives of its Charter, it must invite unconditionally the representative of the Democratic People's Republic of Korea to participate in the discussion of the question on Korea.

As the Government of the Democratic People's Republic of Korea has repeatedly elucidated clearly its position, it will never recognize any "resolution" fabricated arbitrarily by the U.S. imperialists at the United Nations against the interests of the Korean people, without the participation and consent of the representative of the Democratic People's Republic of Korea, and will declare it null and void.

At the 307th MAC Meeting

Espionage and Hostile Acts of the U.S. Imperialist Aggressors Who Illegally Infiltrated the Armed Spy Ship "I-2" into Our Coastal Waters Sternly Condemned

The 307th meeting of the Military Armistice Commission was held in Panmunjom on October 23.

At the meeting our side, producing more detailed materials discovered recently, denounced the U.S. imperialist aggressors for having illegally infiltrated the armed spy ship "I-2" on June 5 into the coastal waters of our side off Haeju in the West Sea to commit espionage and hostile acts, and called the enemy side to account for this.

The navymen of our People's Army recently refloated the above-mentioned armed spy ship which had been sent to the bottom of the sea by the self-defence measure of the navymen of our People's Army while perpetrating espionage acts after intruding into the coastal waters of our side off Haeju, and made a detailed investigation of the ship.

As a result of the investigation, it was further confirmed that the ship is not a 120-ton class "broadcasting ship" as claimed by the U.S. imperialist aggressors, but a 180-ton class professional armed spy ship belonging to their "8296th unit of the naval intelligence agency" and committed espionage acts and hostile provocations on numerous occasions after intruding deep into the coastal waters of our side.

Major General Han Yong Ok, Senior Member of our side, fully laid bare the criminal acts of the U.S. imperialist aggressors, producing before the enemy one by one various documents and espionage apparatuses, proving their espionage and hostile acts, which were collected from the armed spy ship.

According to a "report on action" found in the armed spy ship "I-2," which our side showed, the mission of the armed spy ship was "to carry on special espionage against the North" and in one year from 1964 to 1965 alone the armed spy ship "intruded more than 30 times (three times on an average a month.)"

The Loran book discovered in the ship contained records showing that the ship had intruded into the coastal waters of our side on many occasions and committed espionage acts.

The identification cards of an "intelligence officer" and crewmen collected from the armed spy ship proved that they belonged to the ship reconnaissance corps and all of the scoundrels on board the ship were professional spies.

Our side put before the enemy the wireless transmitters and a telephoto-lens installed in the armed spy ship and showed the photos of radar reflector, several 40 mm and 20 mm machineguns and the like which had been used for espionage and hostile acts, and other irrefutable material evidences.

The Senior Member of our side said that all these material evidences irrefutably proved: firstly, the "I-2" was not a "broadcasting ship" but a professional armed spy ship equipped with various espionage apparatuses and heavy weapons; secondly, the "I-2" was not on a "peaceful mission" but intruded deep into the coastal waters of our side and committed espionage and hostile acts from long before; thirdly, all the crewmen of the ship were spy bandits who received professional education for special espionage.

He thoroughly refuted the foolish allegation of the U.S. imperialist aggressors that our side captured the armed spy ship "I-2" in the high seas.

The Senior Member of our side, producing photo material showing the armed spy ship "I-2" sinking in the coastal waters of our side at the very place where it was committing a criminal act, by the self-defence measure of the navymen of our People's Army, said: If the ship was in the high seas not intruding into the coastal waters of our side, it would have been still at the bottom of the high seas.

It is difficult for anyone to believe that small guard craft of our side approached the heavily armed spy ship under the cover of several planes and direct artillery fire and still more unbelievable is the cock-and-bull assertion of the U.S. imperialist aggressors that our side tugged the heavily armed 180-ton class large ship carrying 20 armed navymen, not a fishing boat or small boat.

The allegation of the U.S. imperialist aggressors is a jargon which is completely inconsistent with facts and does not hold water in all respects and it can not fool even a child.

These espionage acts and sinister hostile provocations of the U.S. imperialist aggressors are not a chance accident but the extension of the incident of the armed spy ship "Pueblo" and the incident of large-size spy plane "EC-121," and a link in their premeditated machinations for the provocation of a new war of aggression in Korea. They are not only a grave aggressive act against the Korean people but also a challenge to peace in Asia and the rest of the world, the Senior Member of our side declared. He demanded that the enemy side stop at once the aggressive espionage acts and hostile provocations against our side.

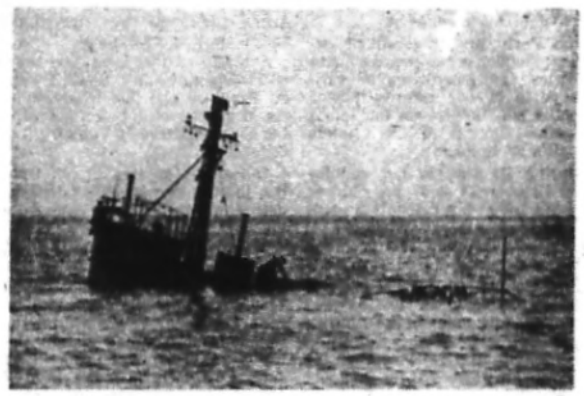
At the meeting, Major General Han Yong Ok, Senior Member of our side, protested against grave violations of the Armistice Agreement the U.S. imperialist aggressors are continuously perpetrating of late against our side in the Demilitarized Zone.

According to the statement of the Senior Member of our side, the U.S. imperialist aggressors perpetrated provocations of firing into the area of our side many times from October 15 to 22.

On October 18 the U.S. imperialist aggressors illegally introduced armoured cars into the Demilitarized Zone.

All facts, the Senior Member of our side said with emphasis, clearly show how frenziedly the U.S. imperialist aggressors are trying to unleash a new war of aggression in Korea behind the smoke-screen of the deceptive racket of "reduction" of the U.S. imperialist aggressor troops occupying South Korea.

In conclusion, the Senior Member of our side strongly demanded that the enemy side immediately take out of the Demilitarized Zone the armoured cars and all other heavy combat equipment illegally introduced there, severely punish the prime movers who organized and commanded the provocations against our side and report the results at the next meeting.



The U.S. imperialists' armed spy ship "I-2" being sent to the bottom of the sea by the self-defence measure of the navymen of the Korean People's Army on the spot where it perpetrated espionage and hostile acts after illegally intruding deep into our coastal waters

U.S. Imperialists Must Stop at Once All the Aggressive Actions in Vietnam, Laos and Cambodia and Quit Indochina Unconditionally and Immediately

DPRK Foreign Ministry Issues Statement

The Foreign Ministry of the Democratic People's Republic of Korea issued on October 29 a statement in connection with the fact that the U.S. imperialists who have sustained military and political setbacks and landed themselves in a predicament in the war of aggression against the Indochinese people, are kicking up of late another deceptive din to conceal their heinous aggressive nature and mislead world public opinion.

The statement reads:

The U.S. imperialists who have sustained greater military and political setbacks and landed themselves in a predicament for their escalation of the war of aggression against the Indochinese peoples are kicking up of late another shameless deceptive din to conceal their heinous aggressive nature and mislead world public opinion.

On October 7 Nixon, the boss of U.S. imperialism, croaked about the so-called "new proposal for peace" such as "ceasefire in the present position," "political settlement" of the South Vietnam question, convocation of a "peace conference on Indochina" and negotiations for the "timetable on the overall withdrawal".

This is for the U.S. imperialists to obscure the distinction between them, the aggressor, and the Indochinese peoples subjected to aggression, justify their war of aggression in Indochina, keep occupying Vietnam and the rest of Indochina, legalize the existence of the puppet regimes and thus turn the whole of Indochina into their permanent colony and military base of aggression.

The so-called "new proposal" of Nixon woven with a gangster's logic is a vicious act of challenge continuously and grossly trampling underfoot the sovereignty of the peoples of Vietnam, Laos and Cambodia and an outright mockery of broad segments of the people in the United States and all the peace-loving people of the world who are resolutely opposing the war of aggression in Indochina.

The Foreign Ministry of the Democratic Republic of Vietnam, the Provisional Revolutionary Government of the Republic of South Vietnam, the Royal Government of National Union of Cambodia and the spokesman of the Central Committee of the Patriotic Front of Laos, issued statements respectively, categorically rejecting Nixon's deceptive "new proposal" and expressing once again their firm determination to fight on staunchly till they completely drive the U.S. imperialist aggressors out of Indochina.

The Government of the Democratic People's Republic of Korea and the entire Korean people fully support these statements.

The sanguinary war in Indochina is a direct outcome of the U.S. imperialists' policies of aggression and war.

The world people well know that the U.S. imperialists are the very aggressors who have made their way into Indochina thousands of miles away from their country and are waging a sanguinary war of destruction and bestially murdering guiltless people in an attempt to reduce the peoples in this region to their slaves, and Nixon is the very one responsible for the crime of having plunged the whole of Indochina into the flames of the war of aggression by further expanding this war of aggression.

Peace in this region can be restored any time, only if the U.S. imperialists, the aggressors, take their blood-stained hands of aggression off Vietnam and other parts of Indochina and quit there.

The Provisional Revolutionary Government of the Republic of South Vietnam issued on September 17 a statement concretizing the ten-point overall solution of the South Vietnam question to achieve the peaceful settlement of the Vietnam question on the basis of respect for the basic rights of the Vietnamese people.

Nixon harps on "peace," "ceasefire" and so forth, while doggedly opposing this shortest cut to peace. This reveals in all its nakedness his dark design as the aggressor.

With no amount of heinous artifice, however, can the U.S. imperialists conceal their true colours as the aggressors against the Indochinese peoples or hold in check the struggle of the peoples of Vietnam, Laos and Cambodia who have risen up in the war of resistance against U.S. imperialist aggression and for national salvation or quell the daily mounting protest of the world people including the people of the United States against the war of aggression in Indochina.

The U.S. imperialists must stop at once all the aggressive actions in Vietnam, Laos and Cambodia and quit Indochina unconditionally and immediately, taking along all their aggressor forces and troops of their puppet and satellite countries.

The Government of the Democratic People's Republic of Korea and the entire Korean people strongly hold that the Vietnam question should be settled on the basis of the four-point stand of the Government of the Democratic Republic of Vietnam, the ten-point overall solution of the South Vietnam question put forth by the South Vietnam National Front for Liberation and the Provisional Revolutionary Government of the Republic of South Vietnam and the September 17 proposal putting it in a concrete form, and the Laotian question on the basis of the five-point political solution advanced by the Central Committee of the Patriotic Front of Laos on March 6, and the Cambodian question on the basis of the March 23 five-point declaration of Samdech Norodom Sihanouk, Head of State of Cambodia.

The Korean people who regard as their own the righteous struggle of the peoples of Vietnam, Laos and Cambodia against U.S. imperialist aggression and for national salvation will do everything possible to support the struggle of the three Indochinese peoples against the U.S. imperialist aggressors, the common enemy.

If the U.S. imperialists, in defiance of the repeated warnings and strong protest of the peoples of the whole world, prolong the war of aggression, refusing to withdraw from Indochina, they are bound to meet a greater defeat and miserable destruction.

The peoples of Vietnam, Laos and Cambodia who are enjoying the strong support and encouragement of the world peace-loving peoples and waging a heroic struggle in firm unity, upholding the joint declaration of the Summit Conference of the Indochinese Peoples, will wipe out the U.S. imperialist aggressors to the last man and certainly win final victory.

The Central Committee of the North Korean Democratic Party, the Central Committee of the Religious Chongu Party and ministries, central organs and public organizations also laid wreaths at the foot of the monument.

The Party and government organs, public organisations and factories and enterprises in various parts of our country placed wreaths and flowers on the tombs of fallen fighters of the Chinese People's Volunteers.

During its stay in our country from October 23 to 27 the Chinese people's friendship delegation visited various places. Wherever it went, the delegation was accorded warm welcome from our people.

The Cabinet of the Democratic People's Republic of Korea gave a banquet in honour of the Chinese people's friendship delegation on the evening of October 23 at the Okryugwan Hall. At the banquet the speeches were made by Comrade Pak Sung Chul, Second Vice-Premier, and Comrade Tseng Ssu-yu, head of the Chinese people's friendship delegation.

On October 24, the delegation members visited the historic Mangyongdae, the spiritual birthplace of the 40 million Korean people and the cradle of revolution.

They looked round the Mangyongdae Revolutionary Museum of Historical Materials, the home in Mangyongdae where Marshal Kim Il Sung was born and spent his childhood, and the historic sites on Mangyong-hong Hill.

On October 23, the delegation placed wreaths at the foot of the monument in memory of fallen fighters of the Korean People's Army, the friendship monument and liberation monument.

Another group of the delegation visited the place where Comrade Lo Sheng-chiao, an internationalist martyr, had fought during the Korean war. There Comrade Lo Tieh-kai, the martyr's father, had an emotion-charged meeting with the family of Comrade Choe Hyong (he was rescued by Lo Sheng-chiao during the past Fatherland Liberation War).

"Korea-China friendship ten days" observed in our country made a great contribution to the further strengthening of the militant friendship and solidarity sealed in blood between the Korean and Chinese peoples and armies of the two countries.

Militant Greetings to Algerian People Celebrating 16th Anniv. of the Start of Revolution

November 1 is the 16th anniversary of the start of the revolution of the Algerian people who fought against the French colonialists with arms in their hands.

On this meaningful day, the Korean people extend warm congratulations and militant greetings to the Algerian people who are waging an active struggle against the U.S. imperialists and the Israeli aggressors and for the prosperity of their country and accomplishment of the just cause of the Arab peoples.

The armed struggle of the Algerian people against the French occupationists which had started in 1954 was a new historic event in their struggle for national liberation, and greatly inspired and promoted the struggle of the African people for winning freedom and independence and against imperialism and colonialism.

The Algerian people who rose in arms against the aggressors kept up their arduous armed struggle for over 7 years running, drove out the French aggressor troops more than 800,000 strong actively backed by the U.S. imperialists and won the glorious national independence in July 1962.

Comrade Kim Il Sung, the great Leader of the 40 million Korean people, said as follows:

"A people who have won independence should actively strive to crush the subversive manoeuvrings of foreign imperialism and domestic reactionary forces and tear down the colonial ruling machine of imperialism, demolish and wipe out the economic foothold of imperialism and domestic reaction, strengthen the revolutionary forces and establish a progressive social system, and build an independent national economy and national culture." ("The Democratic People's Republic of Korea Is the Banner of Freedom and Independence for Our People and the Powerful Weapon of Building Socialism and Communism," p. 40.)

The Algerian people who won independence through the hard-fought armed struggle carried forward their vigorous struggle for the consolidation of the national independence and building of an independent national economy and national culture, frustrating all kinds of subversive and wrecking activities of the imperialists under the uplifted banner of anti-imperialism and independence.

Today they are pushing ahead with the revolution and construction under the leadership of Chairman Houari Boumedienne. Inheriting the revolutionary spirit of the fighters who shed their blood in the struggle against the enemy, they are unfolding a dynamic struggle for the fulfilment of the four-year plan for the development of national economy whose basic task is to consolidate the economic self-sustenance and political independence. On the other hand, they are exerting efforts to strengthen their defence capacity to provide against the aggressive manoeuvrings of the enemy.

In this course great success has been scored in all spheres of social life, politics, economy, military and culture.

The Korean people rejoice as their own over the achievement made by the Algerian people and warmly congratulate them on it.

The Algerian people are resolutely fighting against the anti-Arab moves of the U.S. imperialists and the Israeli aggressors and are giving an active support to the struggles of the revolutionary peoples in the Near and Middle East and other parts of the world for their national independence and freedom.

The Algerian government and people have been consistent in giving a positive support to the just struggle of the Korean people for forcing the U.S. imperialist aggressor troops out of South Korea and attaining the independent unification of the country, and highly praise the success achieved by our people in the socialist construction. This is a great encouragement to our people.

Today the U.S.-led imperialists are further stepping up their manoeuvres for aggression and war in an attempt to suppress and stamp out the national-liberation movement of the Asian, African and Latin American peoples.

Particularly, the U.S. imperialists and the Israeli aggressors, their lackeys, are further intensifying their aggressive acts against the Arab peoples, aggravating the situation in the Near and Middle East further still.

The U.S. imperialists are the most vicious common enemy of the peoples of Korea, Algeria, other Arab countries and the rest of the world and the target No. 1 in their struggle.

The U.S.-led imperialists and their minions, however desperate they may be, can never check the vigorous advance of the brave and industrious Algerian people as well as the peoples in this region, who are enjoying the active support of the Korean people and other revolutionary peoples in the world.

The Korean people who value the relations of friendship formed with the Algerian people on the one road of anti-imperialist, anti-U.S. imperialist struggle, wish the Algerian people greater success in their struggle against imperialism and colonialism and for the consolidation of national independence and the building up of a new society.
